# Mission Statement

---

SenSys Technology, **design, install** and **maintain** smart network & business solutions for businesses all over Ireland.

The group comprises of SenSys IT & Networks, SenSys Connect, SenSys Voice, SenSys Web Studio, SenSys Security, SenSys Audio Visual, SenSys Wi-Fi, and SenSys Structured Cabling.

We converge technologies to deliver better integration, functionality and cost advantages for clients.

**Our goal** is to provide active integrated technology solutions supported and maintained with 'SenSys Care'.

SenSys Group offer business solutions and one point of contact for all business IT, Network, Communications and Business systems, whilst dealing with a specialist divisions. The 2020 brand update reflects the strategic direction of SenSys Technology, with a **focus on innovation**, growth and ensuring each SenSys customer experiences the SenSys difference.

Our main group icon has been realigned to emphasise the strength of our group and our services. It is the solid parent icon for our brand. The colourful child icons represent our innovation and growth. Our typography is consistent throughout our group. The clean fonts represent the group confidence and expertise.

# Language

---

## Remember

Consistency and brand is important. When talking about SenSys Technology Group, keep the following in mind.

SenSys is always SenSys,  
**never** sensys

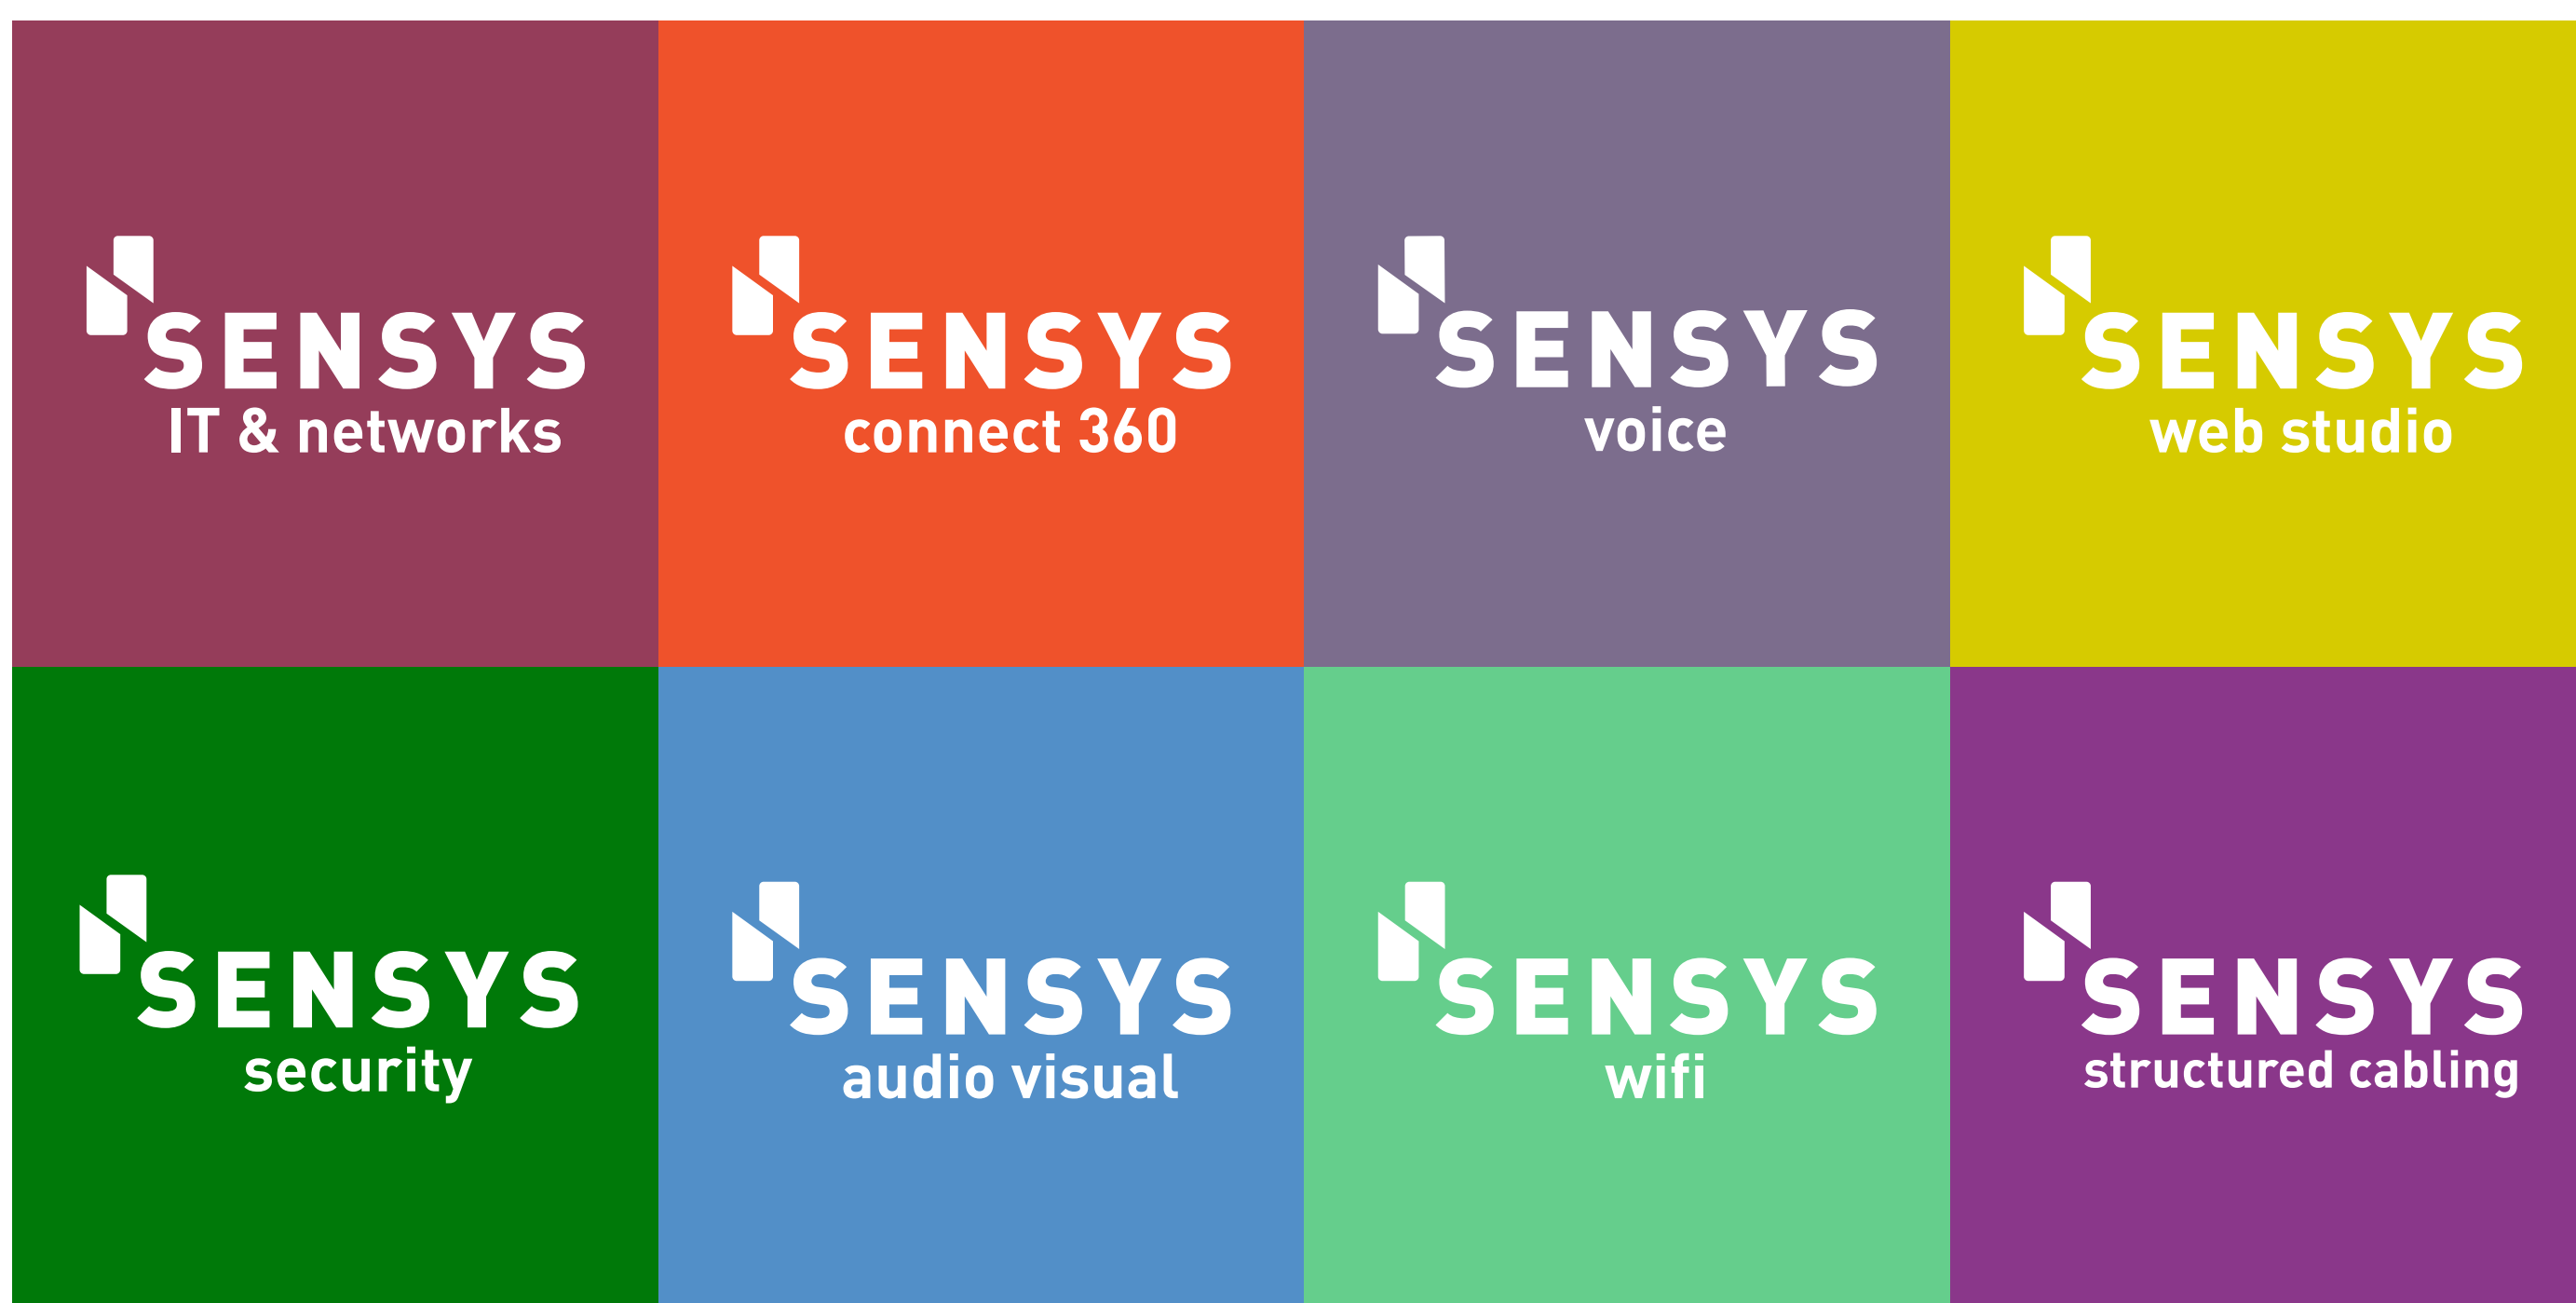

---

Technology is always Technology,  
**never** technologies

# | Colours

# SenSys Technology Group Colour Overview

---

SenSys Technology Family and key colour for each group.

# SenSys Technology Colours

---

## Core Colour

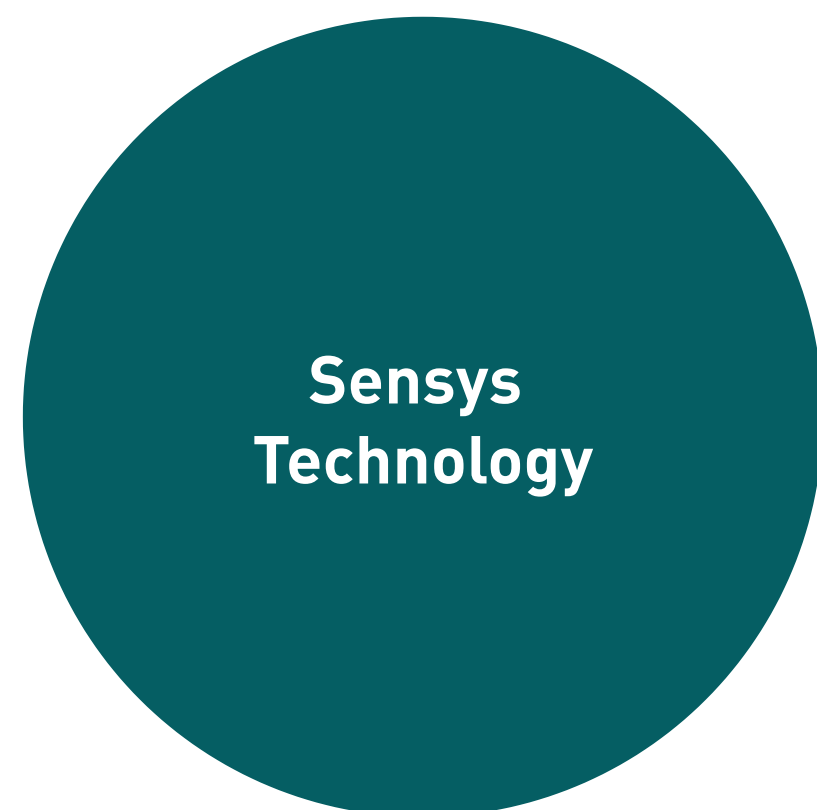

**Our colour palette is split into core and secondary colours.**

Our core brand colour, teal, is taken from the main logo, while the secondary palette complements our core logo and is used on secondary logos across all of the SenSys groups.

The strong core colours identifies us as SenSys. The teal and dark grey are found within the SenSys Group logo.

The core colour can be used within any branding and should be used to highlight information clearly (text or icon), or to create a statement page, linked directly to the SenSys Technology Group.

The secondary colours were chosen as they work well with the core colour and were selected to reflect our broad personality. To get more of an idea of the secondary colours working together, please look at page 9.

<b>Hex</b>	#055E63
<b>RGB</b>	5, 94, 99
<b>CYMK</b>	88, 38, 49, 33

# SenSys Technology Colours

## Neutral Colours

Neutrals can make our communication clear without competing with other colours. Black and white may be used freely with any of the palette colours.

White is encouraged for background colour for a clean, clear look.

The dark grey can be found within **every SenSys Group** logo and thus is a complimentary colour across all brands.

The dark grey can also be used for information, such as text as it is less harsh than black.

**Hex** #383839

**RGB** 56, 56, 57

**CYMK** 68, 59, 55, 62

**Hex** #C7C7C7

**RGB** 199, 199, 199

**CYMK** 25, 18, 20, 1

# SenSys Group Colours

## Secondary Colours

Each secondary colour is attributed to one of the areas within the SenSys Technology Group. (Eg; IT & networks, security, voice etc.) and supports the core brand.

Each secondary colour should only be used with that group.

**For example;** SenSys security Green should not be used on a web page for SenSys voice.

The secondary colour can be used as a full splash to add colour to a page or in small amounts within text such as titles and subtitles. They can be used in icons and relevant illustrations along with brochures and web pages.

It is not to be used on black or grey background.

SenSys

Logos

## SenSys Technology Logo

---

---

Our logo is our flag.

**It represents us.**

And when we use it the right way, people can spot us at a glance.

The SenSys Technology Group logo is the Parent of our Family of logos. It is our headliner and the most recognisable. All other logos follow after. This way the powerful icon, name and subtext reinforce the strength of our parent group

We have realigned our icon and reduced the gap in SenSys Technology Group, to symbolise the group coming closer together and being more cohesive.

# SenSys Technology Logo Variations

---

The SenSys Technology logo pictured on top is our primary logo colour.

## **Please note:**

The SenSys Technology logo should only be used on a white background. For any other background, you should use a monochrome logo.

- The black logo should be used on light coloured backgrounds.
- The white logo should be used on dark coloured backgrounds.

# SenSys Technology Logo Exclusion Zone

---

---

The logos exclusion zone is the length of the 'T' in technology x2. Consider this invisible box something that can never be entered by anything else (visuals, text).

The SenSys Technology Group logo needs room to breathe without crowding it with other information.

# SenSys Group Logos

---

## SenSys Groups

Within the SenSys Technology Group family there are eight separate groups for each area. Each of these groups has its own logo and unique primary colour. These colours do not cross over.

The SenSys Technology Group rectangles are closer together symbolising it is now repositioned as the leader of our group while these are more open.

They follow the same rules as SenSys Technology Group for colour - a mix of colour and dark grey.

The division name is always centered and in lower case apart from 'IT' which is the exception

## SenSys Group Logos Exclusion Zone

---

Following the same rule as the SenSys Technology Group logo, these logos have an exclusion zone is the length of the 'T' in technology x2. Consider this invisible box something that can never be entered by anything else (visuals, text).

The Group logos need room to breathe without crowding them with other information.

# SenSys Group Logos Slim

---

## SenSys Groups Slim

In cases where the normal logo will not fit, a slim single line version of the logo can be used instead. This is our preferred alternative.

In very rare cases, another version can be used for certain logos where space is limited horizontally and vertically.

## SenSys Group Logos Slim Exclusion Zone

---

---

Following the same rule as the SenSys Technology Group logo, these logos have an exclusion zone is the length of the 'T' in technology x2. Consider this invisible box something that can never be entered by anything else (visuals, text).

The slim alternative version of the logo should only be used when nothing else will fit as it is substantially smaller.

# Cheat Sheet

---

## Do's and Don'ts

- **Do** use only approved logo artwork and templates.
- **Do** use the colours (and variants) whenever possible and appropriate.
- **Don't** re-colour logo elements.
- **Don't** change the logo's proportion (eg. skew, stretch or rotate).
- **Don't** tilt the logo.
- **Don't** add drop shadows or other effects.
- **Don't** recreate the logotype or signature by typing it with a font.
- **Don't** place the logo on a background that reduces its legibility.
- **Don't** place the logo on high contrast or vibrant colours.
- **Don't** place the logo on colour tones similar to the logo colours.

# Cheat Sheet

✘ Don't re-colour logo elements

✘ Don't recreate the logo or signature by typing it with a font

✘ Don't change the logo's proportions (eg. Skew, stretch or rotate)

✘ Don't place the logo on a background that reduces its legibility

✘ Don't tilt the logo

✘ Don't place the logo on high contrast or vibrant colours

✘ Don't add drop shadows or other effects

✘ Don't place the logo on colour tones similar to the logo colours

# | Typography

# Typography Overview

---

## Typography

Typeface plays an important role in ensuring a **lasting impression of our brand.**

Like the company logo, the SenSys font families are also expressions of the **SenSys brand.** SenSys uses the font families shown to allow for a full range of practical and creative uses and to ensure consistency across all marketing materials.

There are different guidelines for sizing, depending on if the body of text is in a presentation, a document or something else (eg, a brochure).

Various weights can be used to establish a visual hierarchy. Heavier weights should be used sparingly, as should italics, where applicable.

# Primary Font

---

## Display Typeface

SenSys Technology Groups uses **DIN Black** for its logo and main identifier. It is **simple, modern, clean & bold**.

It should only be used for display purposes, such as product names, event badges or a header of a powerpoint/word document.

**DIN Regular and Light** can be used for main bodies of text/paragraphs.

It is not to be used in typical paragraph styling.

Typeface: 'DIN Light'  
ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
1234567890

Typeface: 'DIN Regular'  
ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
1234567890

**Typeface: 'DIN Bold'**  
**ABCDEFGHIJKLMNOPQRSTUVWXYZ**  
**abcdefghijklmnopqrstuvwxyz**  
**1234567890**

**Typeface: 'DIN Black'**  
**ABCDEFGHIJKLMNOPQRSTUVWXYZ**  
**abcdefghijklmnopqrstuvwxyz**  
**1234567890**

# Secondary Font

---

## Alt Typeface

Where it's not possible to use the brand's main typeface, **PT Sans** should be employed.

As with DIN, heavier weights should be used on rare occasion, and italics should be used in special cases.

PT Sans can be found at [font.google.com](https://font.google.com)

Typeface: 'PT Sans Regular'  
ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
1234567890

Typeface: 'PT Sans Bold'  
**ABCDEFGHIJKLMNOPQRSTUVWXYZ**
